NW AVIATION CONFERENCE

The NW Aviation Conference is held in Puyallup, WA on 24 & 25 February. Mike, Andrew & Dan will be there to represent SAW. We are in booth, #411. If attending, come see us and say hi. We are there to discuss any aviation topic desired.

Mike will be presenting on UPRT on Saturday at 11:45 am, and Sunday at 1 pm.

FEBRUARY 10 SEMINAR

Dr. Joe McMurray visited us from the Bay area to discuss transitioning to high performance airplanes. It was a very informative talk, and we all got to drool over his new GameBird GB1, a fantastic machine!

We are always looking for seminar ideas, so please let us know what topics you want covered and we will do our best to provide.

NEW INSTRUCTOR!

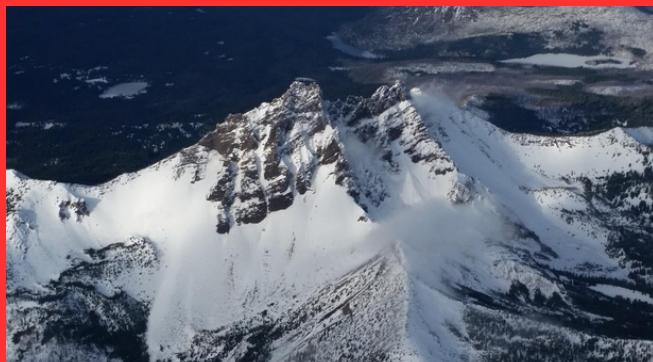

SAW welcomes Nick Thomsen as our newest Instructor. Nick is a former Marine MV-22 Osprey crew Chief, and now flies in Alaska in the Summer and resides in Bend the rest of the time. Nick has his Own 1946 Cub he loves to explore with. Check out more about Nick on our website under instructors.

ADVENTURE FLIGHTS

Did you know that we do tours? We provide aerobatic and non-aerobatic flights in our Super Decathlon. Experience the beautiful scenery of central Oregon, upright or inverted (your choice)!

Check out our offerings. If you don't see what you like, ask. We are flexible and can customize your experience.

We are proud of our 100% success rate for customer satisfaction. Everyone leaves SAW with a big smile and great memories from cool and thrilling aviation experiences.
